Request for Continued Examination

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on March 28, 2005 has been entered. An action on the RCE follows:

REASONS FOR ALLOWANCE

2. This office action is made in response to applicant's amendment filed on March 28, 2005. Claims 1-229 are cancelled, independent claims 230, 242, 244, 245, 246, 247 are amended, and dependent claims 231-241, 248, 243, 249 are previously prevented. Claims 230-249 are currently pending in the application.

3. Applicant's arguments, see pages 11 and 12, filed March 28, 2005, with respect to claims 230-249 have been fully considered and are persuasive. The rejection of Shaffer et al has been withdrawn.

4. Claims 230-249 are allowed.

5. The following is an examiner's statement of reasons for allowance:

Shaffer et al (US 6,050,690), the cited prior arts, alone or in combination, do not teach or fairly suggest "an apparatus for outputting position information corresponding to light having a cyclically varying intensity, said apparatus comprising: different signal generating means for generating, for each photoelectric conversion element, a different signal corresponding to a difference between an output of a photoelectric conversion

Art Unit: 2674

element when the light cycle is at a first point and an output of the same photoelectric conversion element when the light cycle is at a second point, the first point being at a higher intensity than the second point; threshold setting means for setting a threshold value on the basis of a level of said different signal obtained from each photoelectric conversion element.”

These distinct features have been added to the independent claims 230, 242, 244, 245, 246, 247 and render the above limitations allowable and along with other limitations as recited in the independent claims 230, 242, 244, 245, 246 and 247.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
